

R270, R271, and R272 Clinical Course Requirements Checklist  
 Summer Semester of 2nd Year (4 credit hours) / Fall Semester of 2nd Year (4 credit hours) /  
 Spring Semester of 2nd Year (4 credit hours)

In addition to performing radiographic exams, the following information and documentation is REQUIRED for this clinical course. Failure to complete any of these items will result in a reduction in the clinical course grade. It is not the responsibility of the CP to inform students of delinquencies or missing activities/documents prior to calculating clinic course grades. The student is responsible for verifying everything on this list at mid-term and at semester end. Academic Misconduct will not be tolerated. <http://studentcode.iu.edu/>

Course Activities and/or Database Requirements

Clinical Course Requirements Checklist Due: Mid & End Semester (See Canvas for specific deadline)

- Attestations Submitted in Canvas: Student Handbook and Clinical Handbook as assigned
- Take the Clinical Handbook Quiz on the assigned day or by the designated deadline
- Record 2 *Performed* competencies prior to any other *Performed* exams
- Obtain & record direct supervision for all *Competency* exams
- Document indirect supervision (if applicable) on *Performed* exams after two *Performed* competencies are recorded
- Document *Performed* competencies on a minimum of 25 different exams with direct supervision
- Perform 2 Sterile/Aseptic Technique competencies with the method and ASN placed in the notes section of the database
- Perform 2 Transfer of Patient competencies with transfer method and ASN placed in the notes section of the database
- Perform 3 PAVS competencies, at least 3 weeks apart, on student or tech with full name and results recorded in notes
- R272: Perform 1 Temperature competency on student or tech with full name and results recorded in notes
- Modality Semester: Perform 1 Pulse Ox Skill competency with ASN and results recorded in notes
- Modality Semester: Perform 1 O2 Skill competency with ASN and results recorded
- CT Rotation: Perform 2 Venipuncture competencies with ASN placed in the notes
- Confirm exams and skills of all types have been verified/confirmed by a technologist
- Indicate agree or disagree on all applicable Evaluations and Skills in E\*Value
- R270: Complete the ISRT Project and corresponding assignments by the designated deadline
- R271/R272: Take the Clinical Knowledge Quiz (CKQ) on the assigned day
- R271/R272: Perform the required Image Critiques with the Clinical Preceptor
- Record all p-days appropriately in E\*Value. A total of 4 p-days are allowed without a grade reduction.
- Perform and/or submit site-specific required tasks and/or documents (if applicable)
- Submit Orientation Checklist in Canvas by designated deadline
- Submit Check-In Survey and Clinical Course Requirement Checklist (this form) in Canvas by designated deadlines
- R272: Submit the ARRT Wish List and the Clinical Course Requirement Checklist (this form) at designated deadlines.

The total number of competencies required by the ARRT is 10 mandatory general patient care activities, 36 mandatory imaging procedures, and 15 elective imaging procedures (must include one from the head section and two from the fluoro section).

Optional for a 1/3 letter grade increase:

- Perfect Attendance or...
- 8 Approved Professional Development points

NOTE: Clinic grades can only be increased if the student has *no grade reductions and is not on probation*. Clinic grades can only be increased by 1/3 for this course. If PD points will be used, the student must email the CP before the last day of the clinic to ask for them to be applied. They will not be applied if not approved in the database.
