May Issue

In

Shortly after our graduation  
in May 1942 we moved to  
Louisville, Kentucky, where  
Hugh had accepted a position  
as an attorney for the Joseph &  
Seagram corporation. I, Charlotte  
Freeland (Loki Leder) worked in the  
Research Office of the University  
of Louisville until recently  
when I accepted a position  
with Seagram's doing personnel  
research work. Seagram  
could well be called I. O. -  
extension division because  
throughout the organization  
from secretaries to the Vice  
President are found  
numerous I. O. grads.
